Sudden Blood Poison (New Edition) HDTVVideo. This video is a remake of the original Dark Angel 720p video that was released back in October. Unlike the rest of the Blood Videos, the edit of this is quite different and has only been spliced up from the original video. On August 22nd, 2007, the world will be turned upside down when the title character from The Sandman explodes onto newsstands and onto the web, dropping a series of experimental books from his bleeding, or “holy” hands. The series is for anyone interested in comics, horror, fantasy, mythology, monsters, science, philosophy or just something that doesn't quite fit in your daily life. Subscribe : Website : Facebook : Twitter : Watch my other Videos The SisVidNews 'end time era' channel (4K ULTRA HD) created a space where Churchgoers and Church Administration could see some amazing and helpful videos made on the highest possible quality audio/video. Epics and revelations for those who believe to see. These clips are only the beginning of the story of SisVid and it's creation around the world. The articles/documents generated from the source videos and images play a major role, but if you just want to watch some good videos from the same source, then you will be delighted by the amazing content. The files are well written and well structured. Even in the narration of each file, the viewer never tires of listening to and learning more the truth. These videos are generally not only informative but they are also several religious revelations. The fact that she (creator) also put the UST video also doesn't detract from the great content. The only regret is that the SisVidNews team is still awaiting a better IP address for the channel
